

Document 04 — User Journey & Experience Flow

Product Name: HQ

Tagline: Your AI Headquarters

Version: 1.0

Purpose

The HQ user journey is designed to make users feel like they are entering and managing their own AI-powered headquarters.

Every interaction should reinforce that they are leading an intelligent executive organization—not simply using another AI tool.

User Journey Overview

Discover HQ

Landing Page

Create Account

Build Headquarters

Meet Executive Team

Launch First Mission

Executive Collaboration

Mission Delivery

Review Results

Continuous Growth

Stage 1 — Discovery

The user discovers HQ through:

- Social media
- Search engines
- Recommendations
- Product Hunt
- Hackathon demo
- Direct referral

Goal

Help users immediately understand:

«"HQ is your AI Headquarters."»

Stage 2 — Landing Page

The landing page answers three questions within seconds:

What is HQ?

The world's first AI Headquarters.

Who is it for?

Creators, founders, businesses and teams.

Why is it different?

You work with an Executive Board instead of a single AI assistant.

Primary Call-to-Action

Launch Your Headquarters

Stage 3 — Authentication

Users can:

- Sign up with Email
- Continue with Google
- Sign in
- Reset password

After successful authentication...

The experience changes.

Stage 4 — Headquarters Creation

Instead of creating an account...

Users create their headquarters.

Step 1

Welcome Message

«"Welcome to HQ."»

Step 2

Create Company

- Company Name
- Industry
- Team Size

Step 3

Create Brand

- Brand Name
- Logo
- Brand Colors
- Website
- Social Links

Step 4

Business Goals

Examples:

- Grow my business
- Create content

- Increase sales
- Build my audience
- Launch products

Step 5

Brand Voice

Choose:

- Professional
- Friendly
- Luxury
- Bold
- Educational
- Inspirational

Step 6

CEO Welcome

The CEO greets the user.

Example:

«"Welcome to your Headquarters. Your executive team is ready."»

Stage 5 — HQ Dashboard

The user enters HQ.

The dashboard displays:

- Executive Board
- Active Missions
- Notifications
- Today's Progress
- Credits
- Mission History
- Quick Actions

Stage 6 — Meet the Executive Board

Every executive introduces their role.

Examples:

CEO

"I coordinate every mission."

Marketing

"I grow your audience."

Research

"I uncover opportunities."

Creative

"I shape your ideas."

Design

"I bring your vision to life."

Stage 7 — Launch Mission

Instead of creating projects...

Users launch missions.

Examples:

- Launch a campaign
- Create YouTube content
- Build a marketing strategy

- Design a landing page
- Research competitors

Mission information includes:

- Objective
- Deadline
- Priority
- Target audience
- Success metrics

Stage 8 — Executive Collaboration

The user watches the headquarters operate.

Example workflow:

CEO reviews the mission.

Chief of Staff assigns departments.

Research gathers insights.

Marketing develops strategy.

Creative shapes concepts.

Content writes copy.

Design creates visuals.

Analytics validates performance.

CEO reviews everything.

Mission delivered.

Stage 9 — Mission Delivery

The final output includes:

- Executive Summary
- Deliverables
- Recommendations
- Next Steps

The CEO presents the completed mission.

Stage 10 — Mission History

Users can:

- View completed missions
- Reopen missions
- Duplicate missions
- Track progress
- Compare results

Stage 11 — Asset Center

Every generated asset is automatically stored.

Includes:

- Documents
- Images
- Videos
- Brand assets
- Campaign files

Stage 12 — Subscription Experience

When limits are reached:

The CEO presents an upgrade recommendation.

Example:

«"Your Headquarters has reached today's mission capacity. Upgrade to continue expanding your business."»

Stage 13 — Notifications

Examples:

- CEO approved your mission.
- Research completed.
- Marketing strategy ready.
- Design assets completed.
- Mission delivered.

Stage 14 — Continuous Learning

After every mission:

The Executive Board learns.

Brand memory expands.

Recommendations improve.

Future missions become more personalized.

Emotional Journey

Every user should feel:

1. Curious
2. Excited
3. Confident
4. Empowered
5. Productive
6. Successful

HQ is designed to inspire confidence by making users feel supported by an intelligent executive team.

Experience Principles

Every interaction in HQ should be:

Executive

Professional

Collaborative

Transparent

Intelligent

Fast

Memorable

Human-centered

Success Criteria

A successful first
