

Engineering Document E08 — HQ Workspace & Dashboard Blueprint

Product Name: HQ

Engineering Package: Version 1.0

Purpose

This document defines the complete HQ Workspace experience.

Unlike traditional SaaS dashboards, HQ is designed as a living Executive Headquarters where every screen represents a functional department within an intelligent organization.

Users should never feel like they are navigating disconnected pages. Instead, they move naturally through departments that collaborate to accomplish missions.

Design Vision

The HQ Workspace should communicate:

- Executive leadership
- AI collaboration
- Mission progress
- Organizational awareness
- Real-time intelligence

The interface should feel like entering the command center of a modern AI company.

Workspace Architecture

HQ Workspace

- Executive Headquarters
- Mission Control
- Executive Board
- AI Collaboration Room
- Content Studio
- Asset Library
- Analytics Center
- Organization Center
- Billing Center
- Notification Center
- Settings Center
- Global Search

Each workspace functions independently while remaining connected.

Global Application Layout

Top Navigation	
Sidebar	Workspace
Global Status Bar	

Sidebar Navigation

Primary navigation includes:

 Executive HQ

 Mission Control

 Executive Board

 Collaboration

 Content Studio

 Asset Library

 Analytics

 Billing

 Settings

Notifications appear beside each relevant section.

Executive Headquarters (Home)

This is the first screen users see.

Purpose:

Provide a complete organizational overview.

Widgets include:

- Welcome Card
- Organization Overview
- Active Missions
- Executive Activity
- AI Status
- Today's Priorities
- Recent Assets
- Subscription Status
- Quick Actions

The home screen should answer:

"What is happening inside my AI organization right now?"

Mission Control

Mission Control is the operational heart of HQ.

Capabilities:

- Create Mission
- Active Mission Queue
- Completed Missions
- Draft Missions
- Mission Timeline
- Mission Progress
- Executive Assignment
- Deliverables

Users should manage work from one place.

Executive Board

Displays every AI executive.

Each executive card contains:

- Avatar
- Name
- Department
- Current Assignment
- Availability
- Confidence
- Performance
- Recent Contributions

Selecting an executive opens a detailed profile.

Executive Profile

Each executive has:

- Biography
- Responsibilities
- Skills
- Active Missions
- Previous Decisions
- Performance Metrics

- Memory Summary
- Collaboration History

Executives should feel like real members of the organization.

AI Collaboration Room

This is HQ's signature experience.

Purpose:

Visualize AI collaboration.

Users observe:

CEO

Chief of Staff

Marketing

Creative

Engineering

Finance

Legal

Review

Approval

Real-time activity is displayed as executives collaborate.

Content Studio

The production center.

Users create:

- Social posts
- Blogs
- Marketing campaigns
- Email sequences
- Product launches
- Brand assets
- AI-generated content

Content can be reviewed before publication.

Asset Library

Stores all generated content.

Categories:

Images

Videos

Documents

Campaigns

Templates

Brand Assets

Folders

Advanced search and filtering are supported.

Analytics Center

Provides insights into:

- Missions completed
- AI usage
- Executive productivity
- Content performance
- Organization growth
- Subscription usage
- Cost analysis

Dashboards update in near real time.

Billing Center

Displays:

- Current plan
- Usage
- Invoices
- Payment methods
- Upgrade options
- Billing history

Organizations can manage subscriptions independently.

Notification Center

Centralizes:

- Executive updates
- Mission completion
- AI recommendations
- Billing alerts
- Security notices
- Organization announcements

Notifications are categorized by priority.

Settings Center

Organization settings include:

- Profile
 - Branding
 - Members
 - Permissions
 - AI Preferences
 - Integrations
 - Security
 - Notifications
 - Appearance
-

Global Search

Searches across:

- Missions
- Executives
- Assets
- Organizations
- Prompts
- Analytics

- Settings

Results appear instantly.

Command Palette

Keyboard shortcut:

Ctrl/Cmd + K

Users can:

- Start a mission
- Navigate anywhere
- Find executives
- Upload assets
- Open settings
- Execute AI actions

The command palette becomes the fastest navigation method.

Quick Actions

Available from every workspace:

- New Mission
 - Ask CEO
 - Upload Asset
 - Invite Member
 - Open Collaboration
 - Search
 - View Notifications
-

Empty States

Every workspace provides:

- Friendly illustration
- Helpful explanation
- Suggested next action
- Quick-start button

Empty screens should encourage progress.

Loading Experience

Replace generic spinners with:

- Executive activation
- Collaboration flow
- Mission timeline animation
- AI thinking visualization

Waiting becomes part of the experience.

Error Experience

Errors should:

- Explain the issue
 - Suggest recovery
 - Offer retry
 - Preserve user work
-

Mobile Adaptation

The workspace scales to mobile by:

- Collapsible navigation
 - Bottom navigation
 - Simplified widgets
 - Swipe interactions
 - Responsive layouts
-

Future Workspaces

The architecture supports future additions such as:

- Marketplace
- Plugin Center
- Workflow Builder
- Voice Command Center
- Enterprise Console
- AI Training Center

No redesign should be required to add new departments.

Success Criteria

The HQ Workspace succeeds when:

- Users always know where they are.
 - Navigation is intuitive.
 - Executive collaboration is visible.
 - Missions are easy to manage.
 - The product feels like an intelligent headquarters rather than a traditional dashboard.
-

Conclusion

The HQ Workspace Blueprint transforms the application into an operational AI organization.

Instead of navigating isolated pages, users move through interconnected departments that mirror how high-performing executive teams operate. This experience becomes one of HQ's strongest

product differentiators, making the platform memorable, intuitive, and uniquely aligned with its vision of an AI Executive Headquarters.
